### Race Day:

#### Standard Tracking: GPS Phone Tracking

People can track your position in a map view as you move along the course.

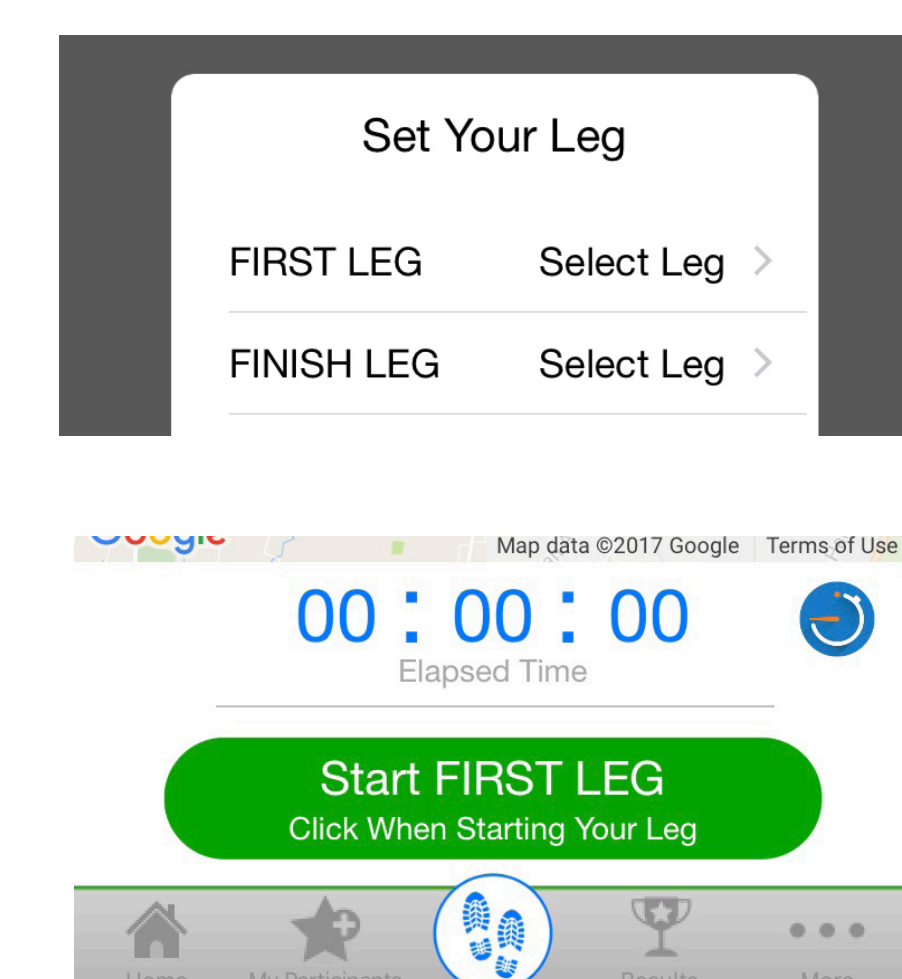

Click on the **green blinking Track Me** button to activate tracking. This will appear within 30 minutes of the race starting.

#### Advanced Tracking: Team or Leg Progress Alerts

- Each team member: **select the leg you are doing.**
- Wait to click "**Start My Leg**" until you actually begin your leg. This begins the personal race time for that leg.
- **If you are doing more than one leg**, select each leg and click "Start My Leg" as you begin each segment.

To receive team progress alerts, the first team member must click "Start My Leg" to start the clock for the team.
